

# Directory of Consultants in Occupational and Environmental Health and Safety

## 2009 Edition

The Occupational Hygiene Association of Ontario (OHAO) has provided this directory as a source document for those who may wish to retain the services of a consultant but makes no comment on the qualifications or competence of consultants listed herein.

### Published by the

Occupational Hygiene Association of Ontario  
6519B Mississauga Rd  
Mississauga, ON L5N 1A6

Tel: (905) 567-7196  
Fax: (905) 567-7191  
E-Mail: [office@ohao.org](mailto:office@ohao.org)  
Web Site: [www.ohao.org](http://www.ohao.org)

## Introduction

This Directory has been prepared for persons interested in retaining the services of a consultant in occupational and environmental health and safety. Occupational and environmental health and safety issues continue to be addressed by management, workers and the general public in an effort to reduce the risk, both real and perceived, to health and safety.

Many workplaces from time to time require the assistance of experts or experienced professionals from various disciplines in the occupational or environmental health and safety fields. This Directory has been developed to assist in finding the expert who may assist you.

Persons contacting consultants using this Directory are encouraged to indicate that this was the source.

## Future Editions

To be included in future editions of the Directory, please contact the Occupational Hygiene Association of Ontario office (905 567-7196; fax: 905-567-7191; e-mail: office@ohao.org).

## How to Use the Directory

The Directory lists the area of expertise and capabilities claimed by the consultant. The format of the Directory is designed to help you match your needs with the special skills and expertise of the consultant. To assist in determining who meets your requirements, a list of occupational and environmental health and safety categories has been developed. A cross-reference index has been developed and will provide you with a short list of those consultants who claim to have the expertise to assist you with your problem. A cross-reference by location is also provided.

The Occupational Hygiene Association of Ontario has provided this Directory as a source document for those who may wish to retain the services of a consultant but ***makes no comment on the qualifications or competence of consultants listed herein.***

## **Areas of Expertise:**

1. Asbestos, Mould and Designated Substance Management
2. Occupational Hygiene and Safety
3. Indoor Air Quality
4. Noise Assessment and Control
5. Health and Safety Training

## **Capabilities:**

Advanced Environmental Corp. (AEC) is a progressive consulting firm specializing in hazardous materials management, occupational health and safety and environmental concerns. During our history AEC has developed a proven track record in the provision of consulting services to various institutional, government, commercial and industrial clients. Our staff has developed a strong reputation for its competent, scientific and practical approach to problem solving.

AEC has a team of highly experienced staff, including engineers, occupational hygienists, project managers and technologists, with a clear understanding of the importance of each client's public profile, schedule and budget. We understand that each client's needs are different and we believe in providing customized programs with their input to fit each specific need of an organization.

# ALARA Industrial Hygiene Services Limited

**Address:** 103 Parkview Hill Crescent  
Toronto, ON M4B 1R5

**Contact:** Charles Pilger

**Professional Designations:** CIH, ROH, C.Chem

**Phone:** 416-759-9579

**Fax:** 416-759-0372

**E-Mail:** c.pilger@alara.ca

**Web:** <http://www.alara.ca>

**OH&S Category Number:** 1, 2, 4, 5, 7, 9, 10, 11, 13, 15

## **Areas of Expertise:**

1. Evaluation of Chemical and Biological Hazards
2. Evaluation of Noise Exposure
3. Development of Risk Assessment and Hazard Management Programs
4. Worker Education and Professional Development Courses
5. Indoor Air Quality Investigation

## **Capabilities:**

ALARA has provided consulting services in occupational health and safety since 1987. We provide exposure assessments where employees may be exposed to chemical, physical, biological and ergonomic hazards. Our clients represent a broad range of work environments, including manufacturing, public utilities, offices, hospitals, schools, pulp and paper and mining.

All work is performed or directly supervised by hygienists who are certified by the American Board of Industrial Hygiene and registered by the Canadian Registration Board of Occupational Hygienists. We have university training in chemistry, psychology, engineering, microbiology, business management and ergonomics, and postgraduate training in industrial hygiene. We have also forged links with other professionals in allied fields, allowing us to deliver a comprehensive, professional consulting service in all aspects of occupational and environmental health.

## **Areas of Expertise:**

1. Air Sampling and Analytical Services
2. Asbestos Consulting
3. Chemical and Biological Hazard Evaluations
4. Indoor Air Quality
5. Noise Assessment and Control

## **Capabilities:**

Cambridge Materials Testing Limited (CMTL) is an Accredited Testing Laboratory complying with ISO 17025 requirements audited by the Standards Council of Canada.

With over 40 years of experience in testing we have built a reputation based on reliable and efficient service to indoor air monitoring, asbestos consulting, chemical and biological hazard evaluations, noise assessments, and support regarding Ministry of Labour regulations.

# Champeda Inc.

**Address:** 5 Fead Street  
Orangeville, ON L9W 1A6

**Contact:** Rob Strang

**Professional Designations:** ROH, CRSP

**Phone:** (519) 941-9013

**Fax:** (519) 941-9013

**E-Mail:** champeda@bellnet.ca

**Web:**

**OH&S Category Number:** 1, 2, 4, 5, 7, 9, 11, 13, 15

## **Areas of Expertise:**

1. Air sampling and noise monitoring
2. Chemical hazard assessments, including designated substances
3. Health and safety training
4. Indoor air quality assessment – including residential
5. Sustainable development consulting

## **Capabilities:**

Champeda Inc. assists clients with a subjective exposure assessment of their jobs. Using years of experience, worker exposure to chemical or physical agents is evaluated. Priorities for air sampling are set to develop a rigorous yet cost effective industrial hygiene program.

Champeda has extensive experience with isocyanates, mineral dust exposures, the paint and coatings industries and the forest products industry. We have completed many projects involving building contamination with metals, PCBs and asbestos.

Custom health and safety training is provided on site specific issues. An introduction to sustainable development concepts introduces management to a field where the organization, the worker and the community have common interests.

# Environmental Expertise™

Specialized Consulting in Toxicology and Chemical Safety

**Address:** 1909 Camborne Crescent, Suite 1  
Ottawa, ON K1H 7B6

**Contact:** Dr. David M. Halton

**Professional Designations:** Ph.D., CIH, ROH, CRSP, C.Ed., CAE

**Phone:** (613) 240-9402

**Fax:** (613) 260-1213

**E-Mail:** davidh@icpoad.com

**Web:** <http://www.environmentalexpertise.com>

**OH&S Category Number:** 1, 4, 5, 7, 9, 10, 12, 13, 15, 16

## Areas of Expertise:

1. Toxicology - Risk Assessment and Chemical Exposure Control
2. Indoor Air Quality Assessment and Management
3. Forensic Occupational Exposure Assessment for Compensation Claims
4. Air Sampling and Testing
5. Safety Program Development, Auditing, and Training

## Capabilities:

We conduct on-site workplace assessments for air quality, audits for OSH programs, and management and employee training.

We also conduct toxicological risk assessments and forensic occupational hygiene evaluations by high quality analyses of scientific data on the environment, human health and workplace. Our clients are government, industry and the not-for-profit sector. They use our solution-oriented information for:

- Health & Safety Management
- Compensation Claims Management
- Expert Witness Testimony
- Policies & Procedures
- Employee Training for WHMIS and Chemical Safety
- Regulatory Controls and Compliance
- Toxicological Risk Assessments for contaminated air, soil, and water

We educate our clients by providing accurate and understandable information, allowing them to make informed decisions, based on sound science.

## **Areas of Expertise:**

1. Indoor Air Quality Assessment and Management
2. Hazardous Material Management
3. Air Sampling/Testing
4. Exposure Control Programs
5. Health & Safety Training

## **Capabilities:**

**H&S Solutions Inc.** provides consultation and management services on occupational health and safety concerns to a broad range of work environments. Our professionals have wide experience and knowledge in such industries as electrical utilities, metal, construction, manufacturing, printing, packaging, semi-conductor and office environments. All services are performed or reviewed by professionals certified by the American Board of Industrial Hygiene.

Specializing in environmental and occupational health services since 1993, our goal is to provide cost effective services and solutions to meet our client needs. Areas of expertise including leading and performance workplace assessments, indoor quality management, air testing, chemical/physical hazards, noise, lead, asbestos, program development, WHMIS compliance (MSDS, labels) and training.

A majority of our clients are small to mid-size as we understand their needs and are committed to providing quality services which are flexible, efficient and cost effective in helping them achieve their health and safety goals.

2. Chemical Substance Assessments
3. Noise Level Surveys/Heat Exposure Assessments
4. Customized On-site training in Occupational Health, WHMIS, Ergonomics, OH&S
5. Qualitative Ergonomic Assessments

## Capabilities:

Why look at your occupational hygiene concerns in isolation when they are only a part of your overall health and safety picture? IAPA has over 200 staff with qualifications in key areas of occupational health and safety.

In addition to providing expert technical services, IAPA Occupational Hygienists and Ergonomists also work closely with Field Consultants in all areas of occupational health and safety. IAPA can provide comprehensive and integrated services to meet all your health and safety needs.

Visit our website at [www.iapa.ca](http://www.iapa.ca) to view our latest health and safety products, programs and services or call 1-800-406-4272 for a copy of our catalogue. Our strength is our ability to integrate occupational hygiene into your overall program providing expert advice and information on an ongoing basis.

# LEHDER Environmental Services Limited

**Address:** 704 Mara St, Suite 210  
Point Edward, ON N7V 1X4

**Contact:** Steve Hawkins, CIH, ROH

**Professional Designations:** CIH, ROH

**Phone:** (519) 336-4101 ext 235

**Fax:** (519) 336-4311

**E-Mail:** shawkins@lehder.com

**Web:** <http://www.lehder.com>

**OH&S Category Number:** 2, 4, 7, 11, 13

## Areas of Expertise:

1. Asbestos Consulting
2. Indoor Air Quality (Commercial and Institutional Only)
3. Noise Assessment and Control
4. OH&S Training and Education
5. Chemical and Biological Hazards Assessment

## Capabilities:

LEHDER specializes in workplace health hazard assessments that support our clients to protect the health and safety of workers. LEHDER also provides Industrial & Occupational Hygiene support for Turnaround/Shut-down projects.

LEHDER conducts the following Industrial Hygiene tasks:

- Review projects, designs and purchases to anticipate health hazards
- Evaluate work environments, processes and materials inventories to recognize potential health risks
- Assess human exposures to hazards through a combination of qualitative and quantitative methods to determine health risks, regulatory compliance and legal liabilities
- Recommend effective control measures to mitigate risks via engineering, administrative or personnel protective methods
- Communicate risks and control measures to workers, management, clients, customers and/or communities

# MACCK Industrial Hygiene Inc.

**Address:** 1885 Blue heron Drive, Units 1 & 2  
London, ON N6H 5L9

**Contact:** James MacKenzie, Tekla Kennedy, Patricia Caron

## **Areas of Expertise:**

6. Assessment of Workplace and Residential Exposures
7. Indoor Air Quality and Mould
8. Legislative Compliance
9. Hazardous Chemical, Physical and Biological Agents
10. Toxicology and Expert Witness

## **Capabilities:**

Providing a broad range of expert professional services in all areas of occupational, environmental and residential health. Generally recognized expertise in assessment of exposures to health hazards, compliance with existing and proposed regulation, and general protection of workers and the public from adverse health effects of hazardous substances. Assessment, construction and implementation of programs to determine risk to health and ways to mitigate them, and resolve complicated issues between opposing parties. Areas of expertise include indoor air quality (workplaces and residences), mould, asbestos, chemical/physical/biological hazards, noise, comprehensive occupational health programs and Material Safety Data Sheet (MSDS) preparation. Resolving stress induced by fear of hazardous materials

# Mold & Bacteria Consulting Laboratories (MBL) Inc.

**Address:** 1020 Brevik Pl, Unit 1A  
Mississauga, ON L4W 4N7

**Contact:** Dr Jackson Kung'u

**Professional Designations:** B.Sc., M.Sc., Ph.D.

**Phone:** (905) 290-9101

**Fax:** (905) 290-0499

**E-Mail:** jkungu@moldbacteria.com

**Web:** <http://www.moldbacteria.com>

**OH&S Category Number:** 1, 7, 13

## Areas of Expertise:

1. Indoor Air Quality – Mould Investigation and Testing
2. Mould Analysis: Air-viable, Air-nonviable, Bulk and Fluid samples
3. Bacteria Analysis
4. *Legionella* Testing
5. Mould and Bacteria Training Courses

## Capabilities:

Mold and Bacteria Consulting Laboratories Inc. (MBL) offers a wide range of microbiology analytical services to various industry sectors. We specialize in fungal and bacterial identification and enumeration of air, bulk and fluid samples. We are rated proficient in AIHA EMPAT fungal culture and fungal direct microscopic examination of air, bulk and surface samples. MBL serves the whole of Canada. We are corporate members of The Canadian Council of Independent Laboratories (CCIL) and The Canadian Association for Laboratory Accreditation (CALA).

We perform:

- Direct microscopic analysis: Bulk, Tape, Swab, and Settle Plates
- Air Non-Viable Analysis: Spore Traps – Air-O-Cells, Allergenco, Micro 5, Laro
- Air Viable Analysis : Andersen samples, RCS strips, RODAC plates
- Bacterial Analysis : E.coli, Coliforms, Staphylococcus sp., Streptococcus sp., Bacillus sp., Lactobacillus sp., Clostridium sp., Salmonella sp., Shigella sp. Listeria sp., Campylobacter sp., Iron and Sulphur bacteria
- Legionella Testing : Water, Air samples
- Pharmaceutical Microbiology : Growth Promotion and Sterility Testing, Bioburden Testing

# Noise Control

**Address:** 45 Meadowcliffe Drive  
Scarborough, ON M1M 2X8

**Contact:** Alberto Behar

**Professional Designations:** P.Eng., CIH, Member Institute of Noise Control Engineering

**Phone:** (416) 265-1816

**Fax:** (416) 265-1816

**E-Mail:** behar@sympatico.ca

**Web:** <http://www.controlofnoise.com>

**OH&S Category Number:** 3, 10, 11, 13

## Areas of Expertise:

1. Occupational noise assessment and control
2. Environmental noise assessment and control
3. Residential noise assessment and control
4. Evaluation of occupational noise exposure
5. Preparation of acoustic assessment reports for MOE

## Capabilities:

Since 1993 Noise Control has provided services mainly to small and mid-size companies, as well as to occupants of housing complexes. The wide range of services includes in-plant noise exposure surveys and assessments, outdoor acoustic assessments and acoustic audits for the Ontario Ministry of Environment, as well as vibration measurements for the evaluation of the workers exposed to vibrations. As a professor and a researcher at the University of Toronto, the principal of the company has performed studies on hearing protectors as well as noise exposure assessments of music teachers and of musicians from the Canadian Opera Company.

Noise Control has provided services to a wide variety of clients including electrical utilities, metals, manufacturing, chemical, paint and others both in the operations and in the office environments. Other clients have been private citizens with noise problems in their dwellings.

# Occupational and Environmental Health Laboratory

**Address:** McMaster University  
1200 Main Street West, Room 3H58 HSC  
Hamilton, ON L8N 3Z5

**Contact:** Dr. Brian McCarry, Ph.D.  
Lorraine Shaw, B.Sc., CIH, ROH  
Don Shaw, B.Sc., CIH, ROH

**Professional Designations:** See above

**Phone:** 905-525-9140 ext 22336

**Fax:** 905-528-8860

**E-Mail:** [oehl@mcmaster.ca](mailto:oehl@mcmaster.ca)

**Web:** <http://www.mcmaster.ca/oehl>

**OH&S Category Number:** 1, 2, 4, 5, 7, 10, 11, 13

## Areas of Expertise:

1. Comprehensively equipped AIHA accredited laboratory able to perform an extensive variety of occupational/ environmental air sample analyses
2. Conduct occupational and environmental research projects
3. On-site industrial and office air quality evaluations
4. Air monitoring equipment rentals
5. Services to Homeowners: Identification of asbestos in bulk samples, including insulation, floor tiles and identification of tremolite asbestos in vermiculite; lead in paint analysis; identification of UFFI (urea formaldehyde foam insulation)

## Capabilities:

The Occupational and Environmental Health Laboratory (AIHA accredited since 1981) specializes in air sample analysis. Our personnel are specifically trained in the analysis and interpretation of samples taken in the workplace and outdoor environments. The laboratory's analytical capabilities include, but are not limited to: fibres, particulates, metals, organics and inorganics. Typical environmental analyses now offered include lead in paint chips, soil and dust wipes; asbestos in air and water (by electron microscopy) and volatile organic compounds (VOCs) in indoor air quality investigations. The laboratory personnel can also tailor training courses to meet specific needs, for instance, learning the basics of air monitoring. Further information may be obtained from the laboratory by phone or fax, our website or e-mail.

# OHE Consultants

**Address:** 496 South Service Road

**Phone :** (519) 642-1122

**Fax:** (519) 642-0331

**E-Mail:** ppityn@oshtechinc.com  
sreut@oshtechinc.com

**Web:** <http://www.oshtechinc.com>

**OH&S Category Number:** 1, 2, 4, 5, 6, 7, 9, 10, 11, 12, 13, 14

## **Areas of Expertise:**

1. Full service AIHA accredited laboratory
2. Ergonomics consulting – office, industrial, injury investigation, PDP, return to work, heat stress
3. Indoor Air Quality and mould investigations
4. Consulting and training
5. Comprehensive air sampling surveys, EHS field services and program development

## **Capabilities:**

- Consulting, training, on-site testing and laboratory services for compliance measurements, complaint investigation, risk reduction, injury determination, remediation, personal protection, etc.
- Chemical air contaminants – designated substances, physical agents – heat stress, noise, etc; ergonomic parameters assessed.
- Analytical and expert support services, supplies available to EHS consultants and service providers

# Phoenix OHC, Inc.

**Address:** 500-837 Princess Street  
Kingston, ON K7L 1G8

**Contact:** Tom Beardall

**Professional Designations:** MHSc, MSc(A), MEng, PhD, CIH, ROH

**Phone:** (613)-544-4046

**Fax:** (613)-544-3104

**E-Mail:** mail@phoenix-ohc.ca

**Web:** <http://www.phoenix-ohc.ca>

**OH&S Category Number:** 1, 2, 4, 5, 6, 7, 9, 10, 11, 13

## **Areas of Expertise:**

1. Comprehensive Health, Safety and Environmental Surveys, Audits and Program Development
2. Evaluation of Exposures to Physical, Chemical and Biological Agents; Control Programs
3. Indoor Air Quality Investigations, Mould and Asbestos
4. Environmental Toxicology; Risk Assessment and Communication
5. Ergonomics

## **Capabilities:**

Phoenix OHC, Inc. offers a unique spectrum of expertise in occupational and environmental health, toxicology and ergonomics. Although much of our client base (governmental, industrial, commercial and residential) is located in eastern Ontario, our personnel have worked at locations ranging from the Canadian Arctic to both coasts of the USA, as well as in Europe and Asia.

We focus on providing cost-effective advice to our clients, encompassing the accepted principles and practices of the professional disciplines that we represent, as well as providing assistance with specific regulatory requirements and the broader duty of "due diligence". Our involvements range from small case-specific assistance through to multi-year plant site evaluation programs.

For many years Phoenix OHC has been contracted to federally-funded counter-terrorism projects developing improved protection for our first responders, including enhanced respiratory protection programs. We also serve on CSA / CGSB, ISO, ASTM and ANSI committees developing standards in personal protection.

4. Occupational health and safety and customized training including air sampling for confined space entry, asbestos, mould, WHMIS
5. Environmental site assessment, waste and compliance audits, remediation, regulatory permitting and certificates of approval

## Capabilities:

True Grit Consulting is a Canadian owned company with Professional Engineers, Geoscientists, Hydrogeologists, Technologists, Industrial Hygiene, Safety and Indoor Air Quality Professionals providing engineering and environmental services throughout Northwestern Ontario, Western Canada and the Arctic. In January 2009 Ina Chomyshyn and Jacquie Elvish, formerly of the *Lakehead University Resource Centre for Occupational Health and Safety*, joined True Grit Consulting. Industrial hygiene consulting services, analysis services (bulk asbestos), and training programs are based on the Resource Centre's thirty year history of high quality service delivery to Northwestern Ontario workplaces, supported by True Grit's engineering, technical and administrative team.

True Grit Consulting is committed to excellence in the provision of traditional industrial hygiene services such as asbestos building audits, designated substance assessments, air sampling to evaluate worker exposures, indoor air quality assessments and effective training, and is innovative in developing services tailored to meet specific client needs.
